Work Experience

August 2024 - February 2025

[@prepkind](#) -Ace Your Visa Interview with AI

- Built conversational UI in React, integrating dashboard workflows, APIs, and mobile responsiveness.
- Contributed to AI-driven question prompt design for adaptive, context-aware interview practice.
- Resolved production challenges (environment secrets, FFmpeg, deployment bugs) for smooth performance.
- Supported Firebase Authentication, Firestore logging, Python email automation, and BugSnag error tracking.
- Improved GitHub workflows (branching, PR reviews, CI/CD) and promoted AI coding tools for faster delivery.
- Strengthened teamwork by seeking help under pressure, turning frustrations into technical and collaborative growth.

SKILLS SUMMARY

- Languages : Python, SQL, Java, Javascript
- Frameworks : Django, React, LangChain, HuggingFace
- Tools : Visual Studio code, Jupyter, Git, Github, Gemini, Cursor, GitMCP

PROJECTS

Chatbot with RAG | Retrieval-Augmented Generation | [LINK](#)

- Built a chatbot using LLaMA 2, LangChain, and Sentence Transformers with RAG techniques.
- Migrated from ChromaDB to FAISS for efficient vector retrieval and knowledge base indexing.
- Designed a Chainlit UI and deployed on Hugging Face Spaces with secure environment configurations.
- Enhanced into a portfolio agent by linking GitHub, LinkedIn, personal website, and PDFs as knowledge sources.
- Exploring core AI development with LangChain, React, and FastAPI for production-ready applications.
- Continuing my journey to build scalable GenAI solutions with strong integration of web, backend, and ML pipelines.

Work Experience – Personal Portfolio Project | [LINK](#)

- Self-initiated, AI-driven learning project
- Built and refined UI/UX flows in React, including package setup, import fixes, and file structure refactoring for maintainability.
- Implemented GitHub Actions with daily PRs to enforce version control discipline and collaborative workflows.
- Managed environment secrets and configured separate staging & production pipelines on Netlify.
- Streamlined CI/CD deployment with custom artifact scripts, ensuring smooth code integration and delivery.
- Adapted quickly to modern AI-assisted development tools (Vibe Coding, Copilot, Gemini, etc.) to accelerate prototyping.
- Delivered a production-ready personal portfolio, showcasing Web Development, Django, React, Generative AI, and ML projects.

EDUCATION

Sri Shakthi Institute Engineering and Technology

Coimbatore, India

- Bachelor of Technology in Artificial Intelligence and Data Science,
- GPA : 7.59/10

Oct 2021- May 2025
